

COURSE CODE : CSA1304

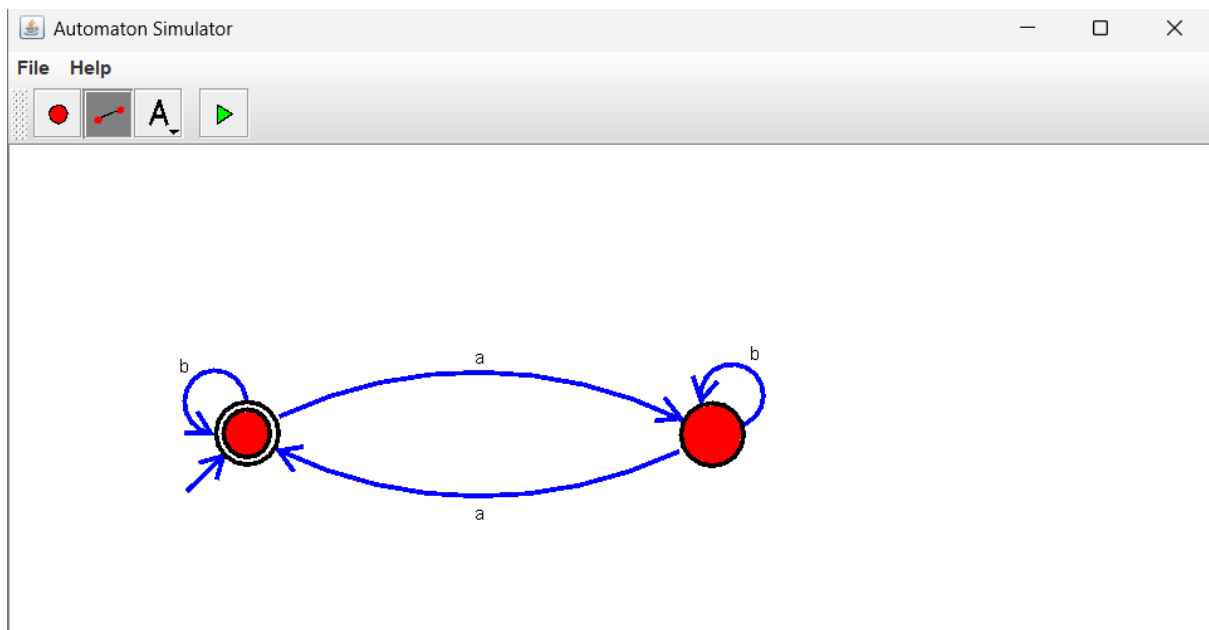

COURSE NAME : THEORY OF COMPUTATION

Girija B

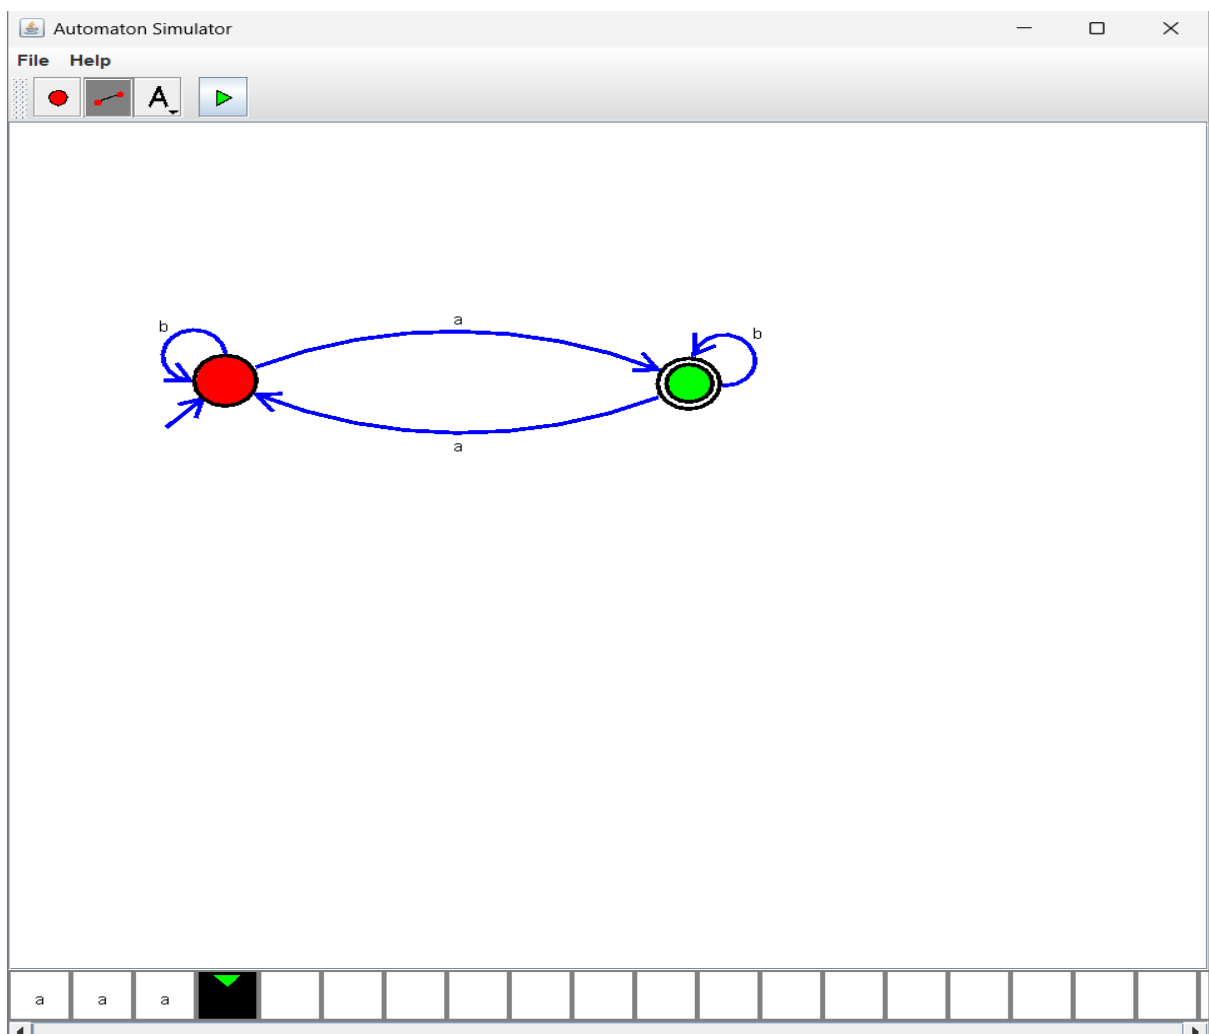

192311044

Lab Exercise

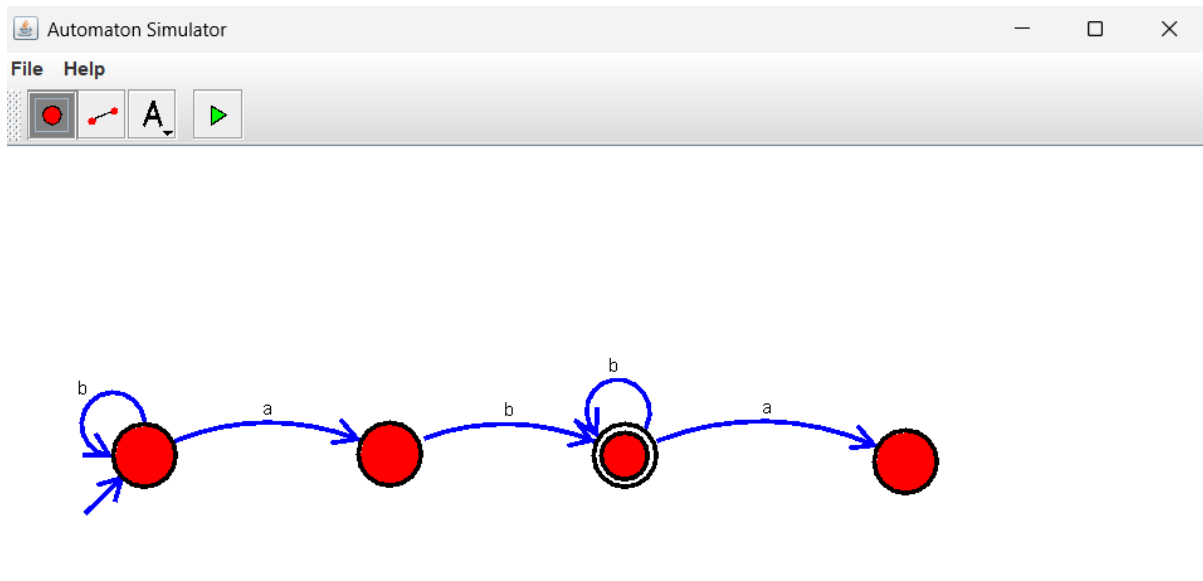

21. Design DFA using simulator to accept even number of a's.

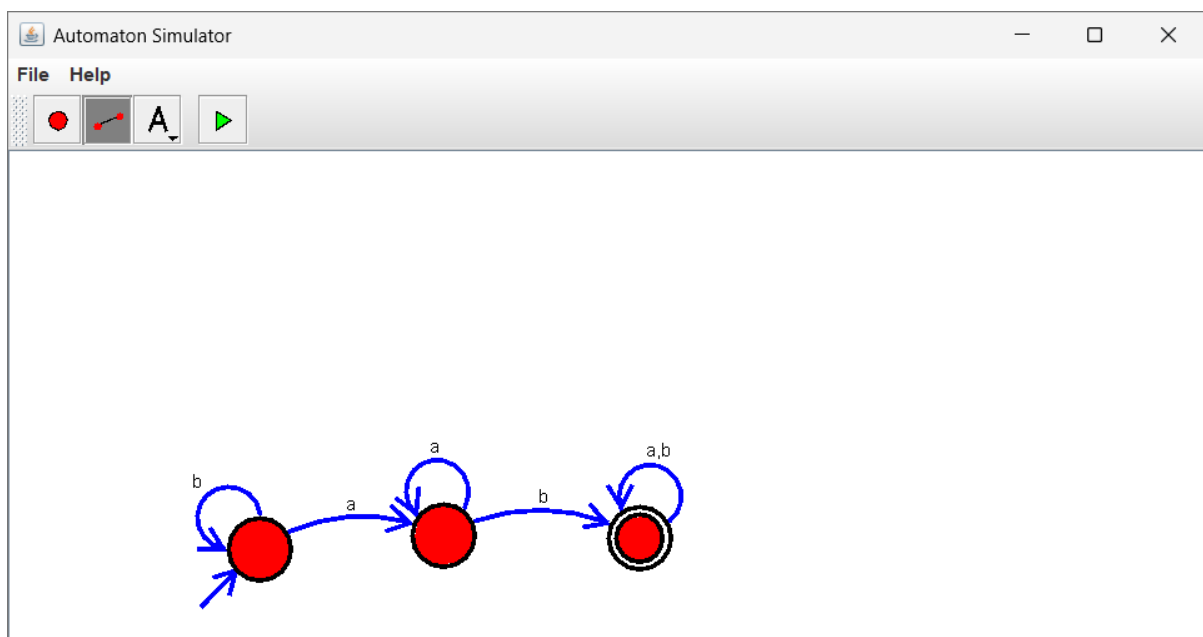

22. Design DFA using simulator to accept odd number of a's

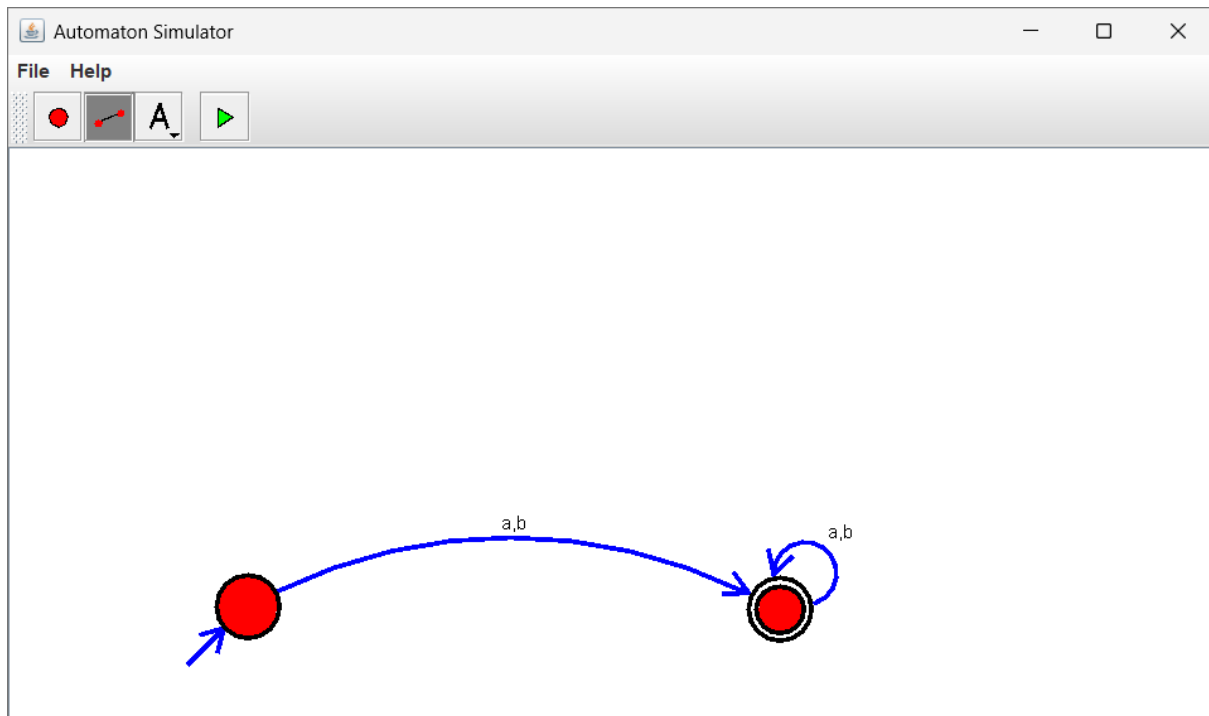

23. Design DFA using simulator to accept the string the end with ab over set {a,b} W= aaabab

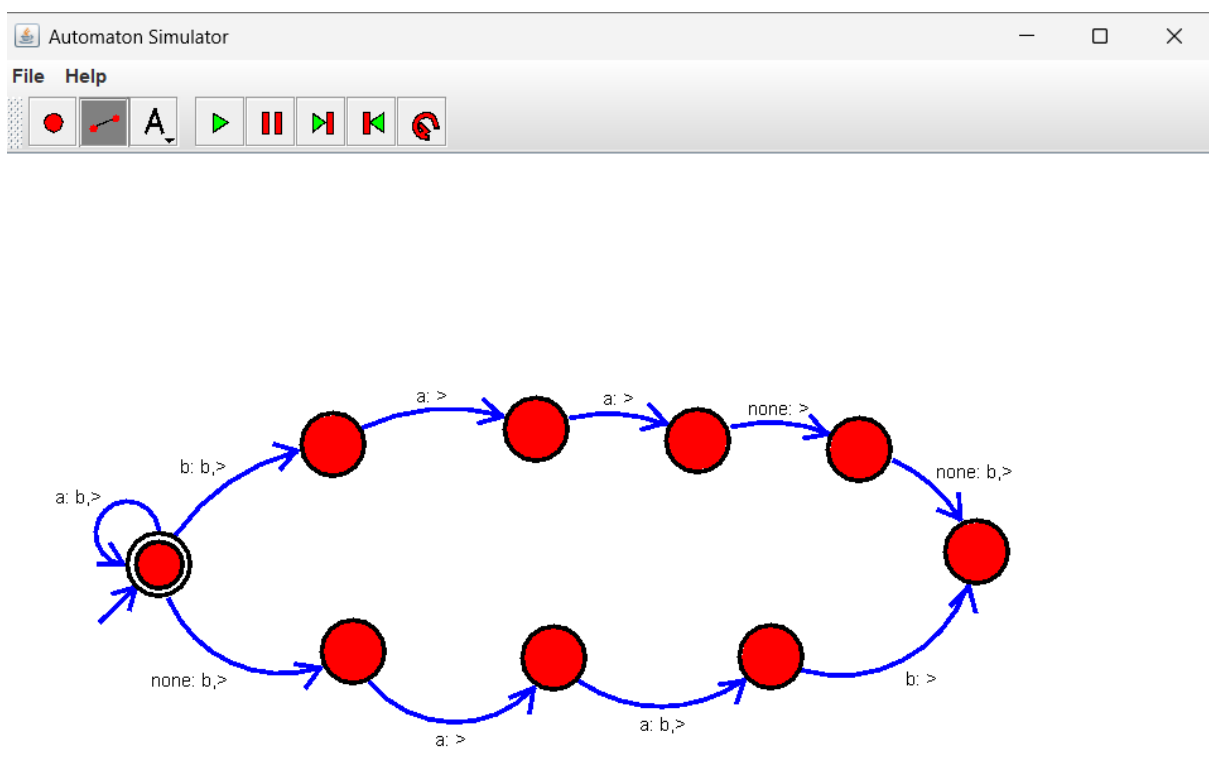

24. Design DFA using simulator to accept the string having 'ab' as substring over the set {a,b}

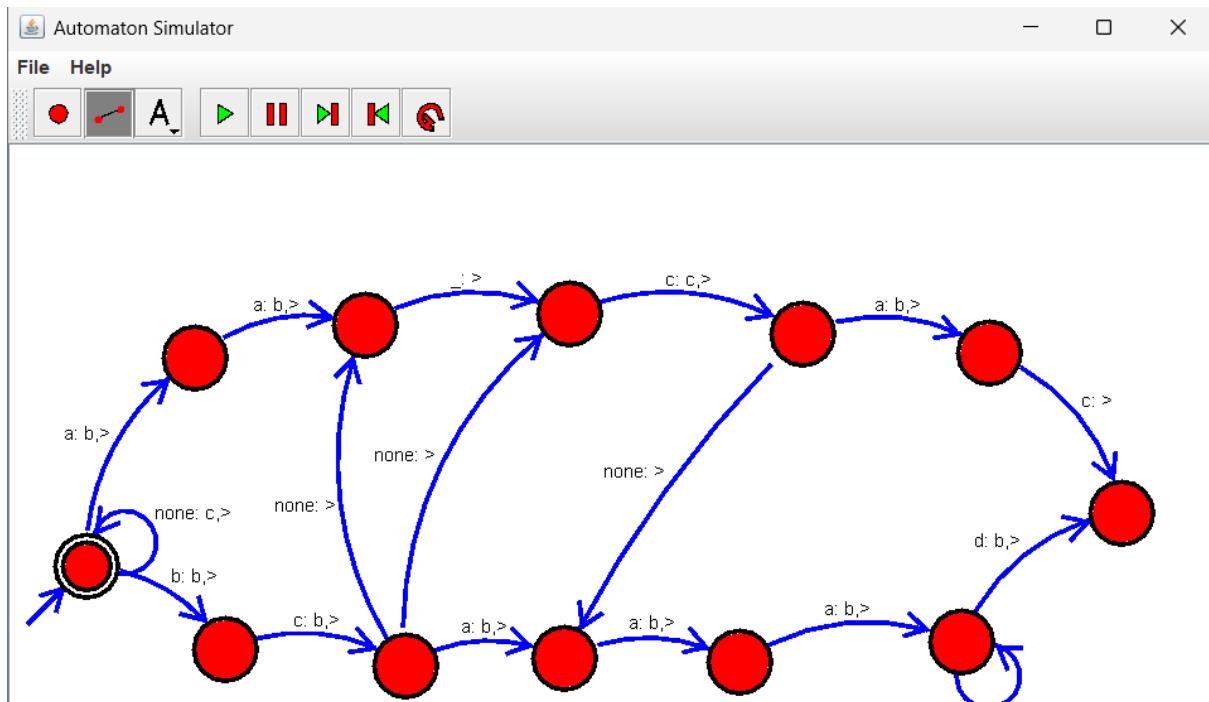

25. Design DFA using simulator to accept the string start with a or b over the set {a,b}

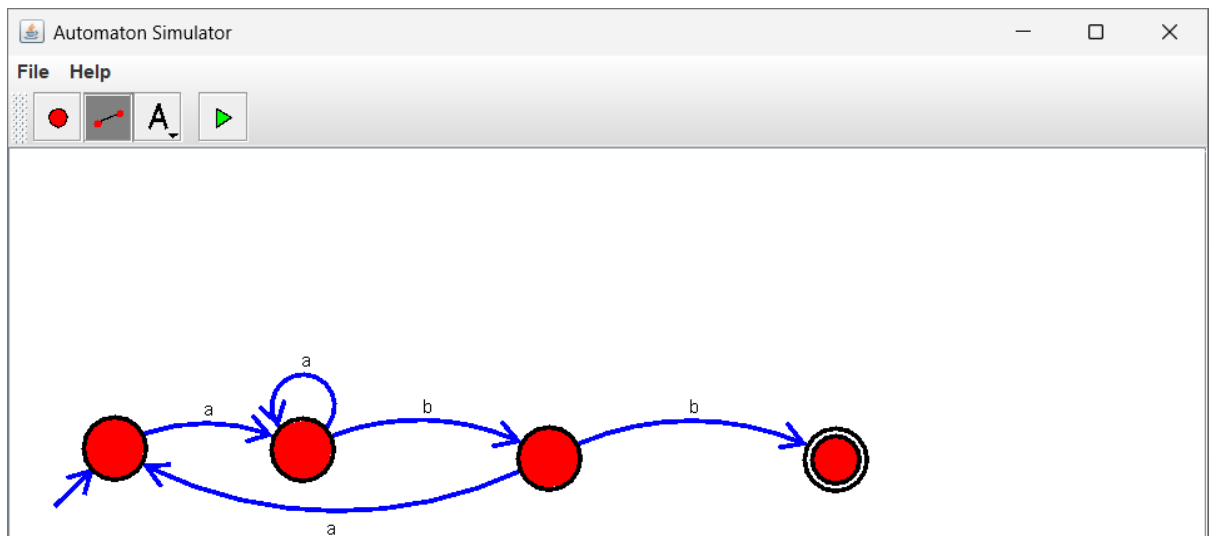

26. Design TM using simulator to accept the input string Palindrome bbabb

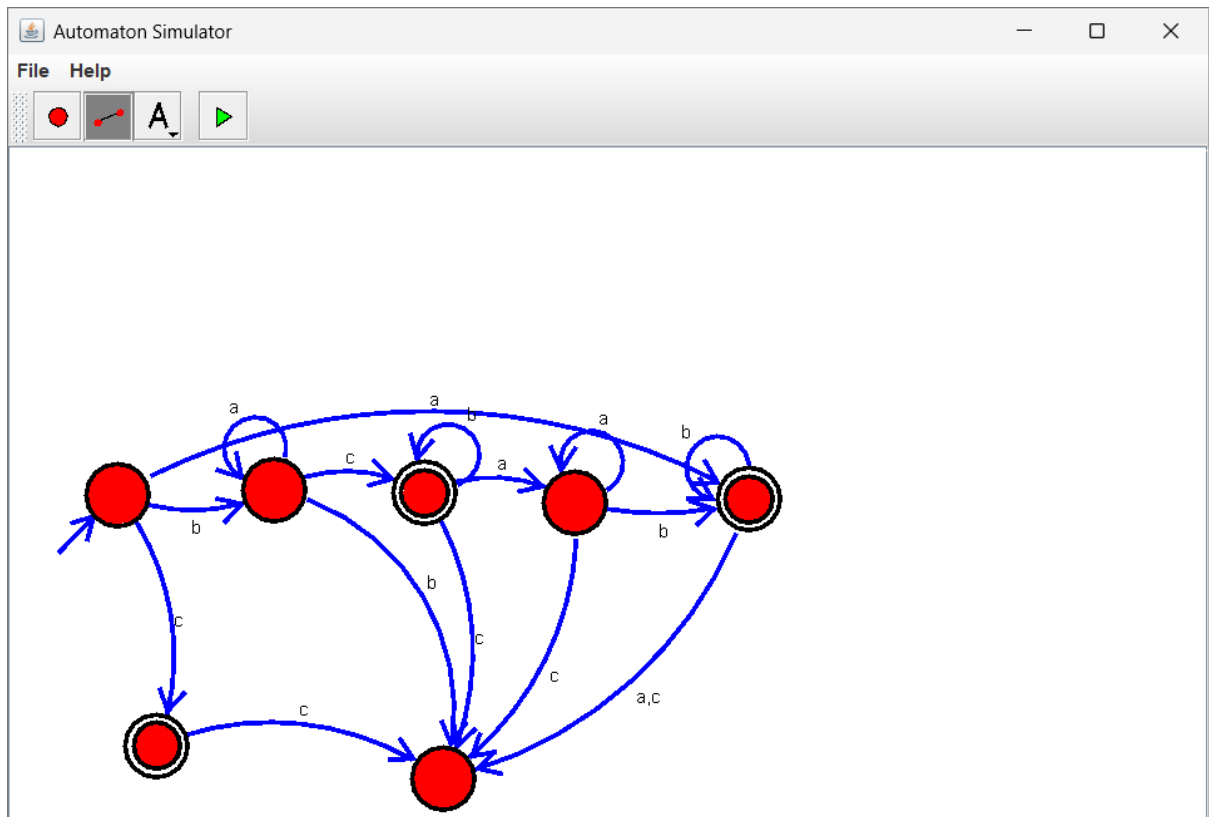

27. Design TM using simulator to accept the input string wcw

28. Design DFA using simulator to accept the string the end with ab over set {a,b} W= abbaabab

29. Design DFA using simulator to accept the input string "bc" ,"c",and "bcaaa".

30. Design NFA to accept any number of a's where input={a,b}.
